

Security assessment statement

Last updated: 21 July 2026

Security assessment statement

This statement is provided to guarantee that Bureau Veritas (<https://cybersecurity.bureauveritas.com>), upon the request of NIPO Software B.V. has conducted the 2026 annual Technical Security Assessment of the Nfield platform.

Bureau Veritas has been performing these assessments for NIPO Software B.V. since 2012.

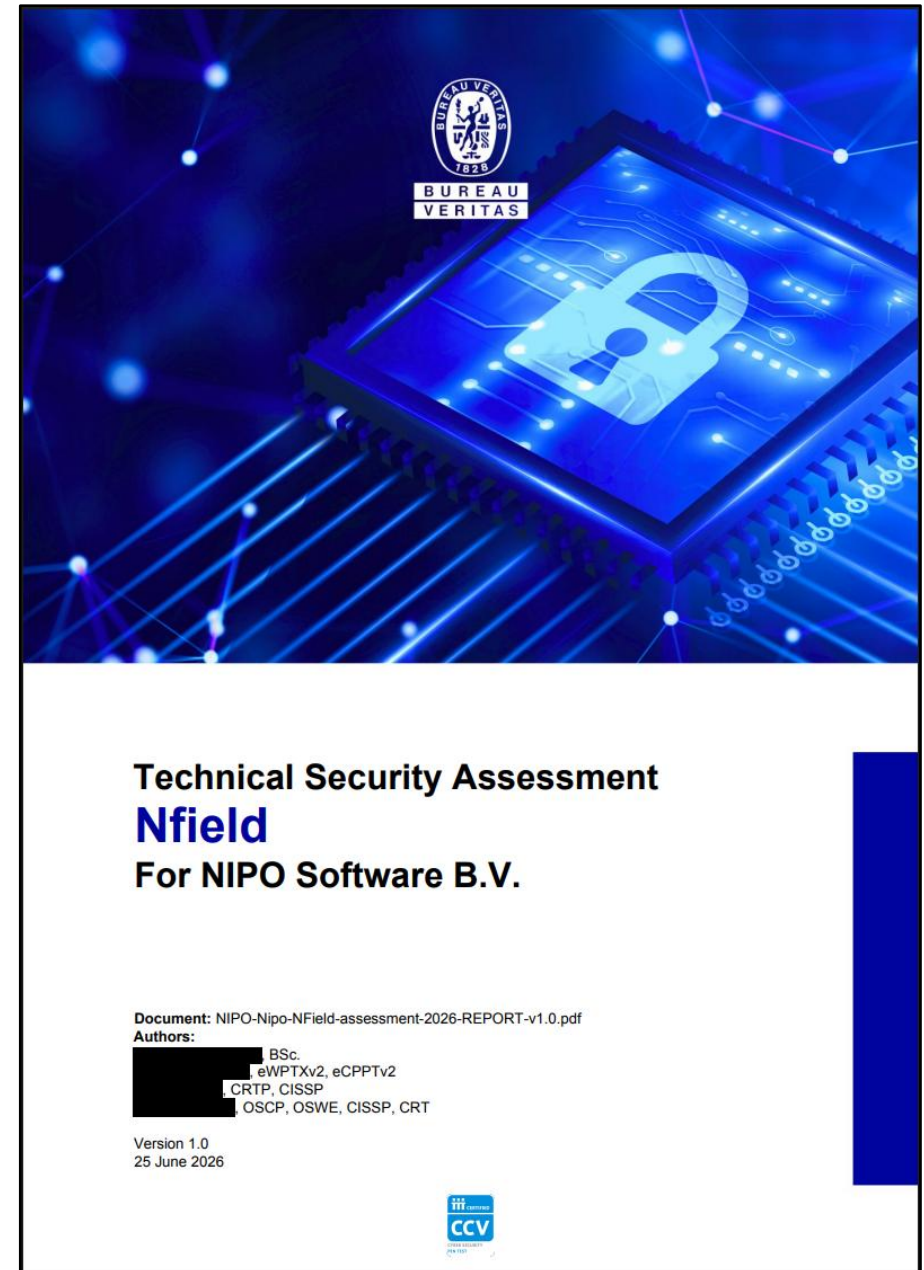

Nfield is Kantar's destination platform. Next to wide usage in Kantar, the Nfield platform is also used by many market research companies across the world.

NIPO is a Kantar company. Under current NDA, the Bureau Veritas report has been shared with Kantar's Risk Assessment team.

The security assessment was performed in June 2026.

1 high risk finding was identified by Bureau Veritas, that was mitigated immediately.
